

Table 2-1

Gloucester County Solid Waste Complex
Permitted Waste Types
Identification Numbers and Definition

- Type 10 Municipal Waste (household, commercial and institutional): Waste originating in the community consisting of household waste from private residences, commercial waste which originates in wholesale, retail or service establishments such as, restaurants, stores, markets, theaters, hotels and warehouses, and institutional waste material originated in schools, hospitals, research institutions and public buildings.
- Type 13 Bulky Waste: Large items of waste material, such as, appliances and furniture. Discarded automobiles, trucks and trailers and large vehicle parts, and tires are included under this category.
- Type 13C Construction and Demolition Waste: Waste building material and rubble resulting from construction, remodeling, repair, and demolition operations on house, commercial buildings, pavements and other structures. The following materials may be found in construction and demolition waste: treated and untreated wood scrap; tree parts, tree stumps and brush= concrete, asphalt, bricks, blocks and other masonry plaster and wallboard; roofing materials; corrugated cardboard and miscellaneous paper; ferrous and non-ferrous metal; non-asbestos building insulation; plastic scrap; dirt; carpets and padding; glass (window and door); and other miscellaneous materials; but shall not include other solid waste types.
- Type 23 Vegetative Waste: Waste materials from farms, plant nurseries and greenhouses produced from the raising of plants. This waste includes such crop residues as plant stalks, hulls, leaves and tree wastes processed through a wood chipper. Also included are non-crop residue such as grass clippings, tree parts, shrubbery and garden wastes. (Pursuant to N.J.S.A. 13:IE-99.11 leaves are excluded from this category.)
- Type 25 Animal and Food Processing Waste: Processing waste materials generated in canneries, slaughterhouses, packing plants or similar industries, including animal manure when intended for disposal and not reuse. Also included are deceased animals.
- Type 27 Dry Industrial Waste: Waste materials resulting from manufacturing industrial and research and development processes and operations and which are not hazardous in accordance with the standards and procedures set forth at N.J.A.C. 7:26G. Also included are non hazardous oil spill cleanup waste, dry non-hazardous pesticides, dry nonhazardous chemical waste, and residue from the operations of a scrap metal shredding facility.
- Type 27A Asbestos Waste: Waste material consisting of asbestos and asbestos-containing waste managed in accordance with 40 CFR 61 and N.J.A.C. 7:26-2.6.
- Type 27I Incinerator Ash: Waste material consisting of incinerator ash or ash containing waste.
- Medical Treated Medical Waste: Class 1 through 7, including cultures and stocks, pathological wastes, human blood and blood products, sharps, animal waste, isolation wastes and unused sharps as defined in N.J.A.C. 7:26-3A.5 & 6.

"Treated Regulated Medical Waste" means regulated medical waste that has been treated to substantially reduce or eliminate its potential for causing disease, but has not yet been destroyed.
